Registration of Post war requirements of capital Goods by Sri. Krishnarajendra Mills Mysore

6653
9 Fe

Letter No. I3 – 23027 Dated 6th May 1946 from the Additional Controller of Cotton Supplies forwarding the letter received from Sri Krishnarajendra Mills for registration of post war requirements of capital goods.

:) Krishnarajendra Mills State that they propose to expand and improve their Mills and they therefore request to recommend to Govt of India for an import license of Rs in respect of 12 cards 5 combers and 6 ring frames in the first instance and for a complete Spinning plant of 12,600 Spindles and 252 looms at a later stage.

:) Govt of India have allotted recently only two units of 25000 coarse Spindles and 19000 fine Spindles for the State and these have to be allocated according to priority to Messrs Kapile Textile Mills and Sri Shankar Textile Mills Ltd. Hence till next allotment no Spindles could be now perhaps be recommended to this firm, besides which there other fresh Mills applied for earlier will have perhaps to be reconsidered in the first instance.

:) The present request of the Mills is to recommend the import of 12 cards 5 combers and 6 Ring frames. The request of the Mills is for consideration orders

DEO 30 MAY 1946

24/5/46 21/5/46.

:) B H D C may perhaps be consulted about this request or the necessary recommendation made for import permitting import of the machinery

:) Dy Secretary 30/5/46

TYPING SECTION 6 JULY 1946 GEN. & REV. SECTY.

Letter no. 19900/-B Dated 28/28 May 46.
from the Secretary to Govt. of Travancore
Public Dept. Regarding the grant of
... in Annexure para 5.

1) Messrs Sri Krishnarajendra Mills
request that their application for the registration
of Post War requirements of capital goods
be dealt with in three parts as detailed
below.

1) Application I for import of 5 new model
Rossmith Looms from U.K.

2) Application II for 12 carding Engines and 6 Later
model Ring Frames.

3) Application III for expansion by the addition of
12,600 Spindles and 252 looms.

For orders
a) If approved, the Comm Ed & may be
Consulted on the requests before
writing to the Govt. As regards III, however
Spindles & looms, the allotment can
be made by the Govt of India
has been referred to, & the final
have to wait for the orders & allotment.

3/6/46 b) Dev Secy)
10) Applications I & II may be
recommended.
As regards application III, I think
it may be considered along with
other applications when the allotment
of spindles for the expansion of
small mills is known.

COPIED

Dear Sir,

Re: Registration of our Post-war requirement of capital goods.

--

We beg to state that the present capacity of our Mills is 25,000 spindles and 236 plain looms. The highest count we can spin with these old type of ring frames is 40s.

According to the recommendations of the Post-war planning committee in their circular dated 20th November 1945 we wish to add 10 % spindles as balancing units to the existing plant to spin counts of yarn finer than 40s and upto 60s and while doing so, we want to import the latest model of Ring frames suitable for finer counts with the object of weaving in our loom shed finer dhoties and sarees than what we are doing at present. It is in this connection that we want to import 5 combers also.

The Deputy Chief Controller of Imports, Capital Goods branch, New Delhi, has asked us to let him know if the Mysore Government have no objection to our scheme for adding the necessary balancing machinery such as 12 Carding Engines, 5 new model Nasmith Combers and 6 Ring frames of 420 spindles each. We herewith enclose copies of letters received from the Deputy Chief Controller of Imports, New Delhi, for your ready reference. This is different from the other larger scheme we have in view to expand the Mills by the further addition of 12,600 spindles and 252 looms under our Post-war expansion scheme for which we have separately applied to the Chief Controller of Imports, New Delhi, for necessary registration.

From

From the nature of letters we have now received from the Deputy Chief Controller of Imports in connection with six Ring frames and 5 combers we are inclined to presume that the recommendations of the Government of Mysore are essential for any expansion schemes and we have no doubt that with your kind support the Government would gladly grant us the necessary permission to acquire additional spinning capacity and looms.

When these additional productive units are installed, we dare say that we can put forth more yarn for the use of the hand-loom weavers in our country in addition to more cloth from our weaving section for the use of the public.

We therefore request your goodself to recommend to the Chief Controller of Imports, Capital Goods Branch, New Delhi, to grant us the necessary import license in respect of 12 Cards, 5 Combers and 6 Ring frames in the first instance and for a complete spinning plant of 12,600 spindles and 252 looms at a later stage.

Thanking you for favour of early compliance,

We are,
Yours faithfully,

General Manager

APPLICATION - I

MYSORE.....27th May..... 1946

The Secretary to Government of Mysore,
Development Department, Bangalore.

Dear Sir,

Import of 5 new model Nasmith Combers from U.K.

We have been advised by the Additional Controller of Civil Supplies in Mysore, Bangalore, that our application No.16680/E2 dated 18.4.46 in original has been forwarded to your goodself along with his letter No.T3-23027-8 dated 6.5.46 for favour of disposal.

The above machines are very urgently required by us as they are very essential to balance the incomplete set of 3 Combers, 1 Sliver lap and 1 Ribbon lap machines we have already ordered out and are under clearance. Further these 5 Combers have been allocated to us by the Textile Control Board as far back as 3.1.46 and we have also finalised the order as per Textile Commissioner's instructions and made a prepayment to Messrs. Indian Textile Engineers, Ltd., Bombay.

On making a reference to the Deputy Chief Controller of Imports, Capital Goods branch, New Delhi, for the grant of the necessary import license, that Officer has asked us to produce documentary evidence showing that the Government of Mysore have no objection to our acquiring the 5 Combers.

We therefore request your goodself to kindly recommend our application for the immediate grant of the license as the manufacturers in England have advised by cable that they have included our requirements in their manufacturing programme for the first half of 1946. We may expect them to be ready for shipment any day.

Thanking you,

We are,
Yours faithfully,

General Manager

BANGALORE ROAD,

In reply refer to..... Application - II MYSORE 27th May 1946

The Secretary to Government of Mysore,
Development Department, Bangalore.

Dear Sir,

Import of 12 Carding Engines and 6 latest model Ring frames.

We have been advised by the Additional Controller of Civil Supplies in Mysore, Bangalore, that our application No.16680/E2 dated 18.4.46 in original has been forwarded to your goodself along with his letter No.T3-23027-8 dated 6.5.46 for favour of disposal.

As a consequence of our adding a unit of Combers for processing superior classes of cotton separately we need 12 additional Cards and 6 Ring frames as balancing machinery. These are within the 10 % increase of the existing spindleage permitted to be imported by the existing Mills as per Textile Control Board's Circular dated 20th November 1945 for balancing purposes.

With reference to our application for the grant of an import license the Deputy Chief Controller of Imports, Capital Goods branch, New Delhi, has asked us in his letter dated 27th March 1946 to produce documentary evidence to the effect that Mysore Government have no objection to this scheme.

We therefore request you to kindly recommend this case very early as he has said that further action would be taken on receipt of your reply.

Thanking you,

We are,

MYSORE 27th May, 1946.

APPLICATION NO.III.

The Secretary to the Government of Mysore,
Development Department,
Bangalore.

Dear Sir,

Sub: Post-War Expansion by the addition of 12,600 spindles & 252 looms.

-:-

We have been advised by the Additional Controller of Civil Supplies in Mysore, Bangalore, that our application No.16680/E2 dated 18.4.46 in original has been forwarded to your goodself along with his letter No.T3-23027-8 dated 6.5.46 for favour of disposal.

As a measure of Post-War Expansion, we want to install a complete spinning plant with a capacity of 12,600 spindles, preferably fine and add 252 looms to make the existing mills a fairly composite one for purposes of economical running. We have duly registered our application for Import Licence for the above Capital Goods before the 30th September 1945 with the Chief Controller of Imports, Capital Goods Branch, New Delhi, as per advertisement issued by the Department of Industries & Civil Supplies, Government of India.

In this connection we beg to invite your kind reference to the recommendations of the Planning Committee for the development of the Indian Cotton Textile ~~machinery~~ industry, and the Government's decision on these recommendations as has appeared in "Commerce" dated 11th May 1946, a copy of which is enclosed herewith for favour of your ready reference. It will be kindly seen that the Government of India are in substantial agreement with the Committee's recommendations for the allocation of new spindleage to the various zones with some minor modifications. The annexure to this resolution shows that a quantity of 44,000 spindles - 19,000 fine spindles and 25,000 coarse spindles has been allocated to Mysore State. In addition to this allocation, the

Government

SRI KRISHNARAJENDRA MILLS, LTD., MYSORE.

Government have proposed to allot some 130,000 spindles for the purpose of expansion of small Mills in various States in the South deficit Zone and in Rajputana deficit Zone. Since we are situated in the South deficit Zone, we are confident that our small expansion scheme by the installation of an additional 12,600 spindles - 6,300 spindles on fine counts and 6,300 on coarse counts will receive favourable consideration at the hands of the Government of India with the kind support of the Government of Mysore.

Further, we beg to state that we have at present 25,200 spindles and 236 looms. The economic size for a composite spinning and weaving mill is 25,000 spindles and 600 looms on the basis of 40 spindles per loom. It is with a view to make our Mills a fairly economic and composite unit that we want to install extra 252 new looms. Even with the installation of these 252 new looms, the output of yarn from 5680 spindles will be available as free yarn for the use of hand-looms. On a further addition of 12,600 spindles the free yarn that would be available for hand-looms would be very nearly 50% of the expanded spindleage.

We have, therefore, every reason to believe that with the kind support of the Government of Mysore, our expansion scheme by the installation of 12,600 new spindles and 252 new looms should receive favourable consideration at the hands of the Government of India.

We shall be obliged if you will kindly recommend our case strongly to the Deputy Chief Controller of Imports, Capital Goods Branch, New Delhi, for the grant of necessary licences which will enable us to acquire our requirements of Capital Goods for post-war expansion as stated above.

Thanking you,

We are,
Yours faithfully,

Encl-1.

General Manager

RR/

Recommendations of the Planning Committee for Expansion of Indian Cotton Textile Industry appearing in "Commerce" Dated 11th May, 1946.

"The Committee has recommended that import of certain machinery should be permitted freely from any country in the world. Having regard to existing currency difficulties, the Government considers that import of plant from countries in respect of which they exist should be permitted only when there is reason to believe that the plant will be delivered appreciably earlier or will be considerably cheaper or better than if obtained from the sterling area.

"The Committee has recommended that where the replacement of existing by new plant is allowed, the replaced plant should be scrapped. While the Government appreciates the force of the Committee's recommendation on this point, it cannot see its way, in the present conditions of cloth shortage, to accepting it in toto. But it will urge on Provincial and State Governments the desirability of preventing the use by mills of inefficient and uneconomic plants.

"The Committee recommends that applications for import licences received after the 30th September, 1945, should be excluded. The Government of India has not accepted this recommendation, because it feels that the relevant Press advertisements did not come in good time to the attention of all industrialists concerned.

"The Committee has modified its original recommendations made in paragraph 24 of its Report, and now recommends that the Government of India should indicate to manufacturers that priority should be given to orders for expansion and new mills over orders for replacement of existing machinery. The Government of India accepts this recommendation.

"The Committee has pointed out in its Report that the present prices of textile machinery manufactured by firms in the United Kingdom are high. The Government of India agrees that this is so, and will endeavour to obtain a reduction in those prices."

The following is the annexure referred to above and contains the spindlage allocated to the various zones:

Ref: Your letter No.12(112)CG/46/1685 dated the 21/26th March 1946.

-:-

With reference to the above we beg to invite your kind reference to our letter No.668/E1 dated the 15th July 1946, and to our subsequent reminder No.1586 dated the 5th August 1946, enclosing a copy of letter No.Pd.71/E11 dated 9/10th July 1946 from the Secretary to the Government of Mysore, Development Department, to the Secretary to the Hon'ble the Resident in Mysore, stating that the Government of Mysore have no objection to the import of the said machinery and requesting to recommend the grant of an Import licence applied for by us. As the question of granting an Import Licence for our requirement of these 5 Nasmith New Model Combers is pending for a long time, and as our suppliers have stated that these machines have been included in their programme of manufacture in the first half of 1946, these will be ready for shipment any time now. We, therefore, request your goodself kindly to treat the matter as very urgent, and grant us the necessary Import Licence at an early date.

25
25

Thanking you for favour of early compliance,

We are,
Yours faithfully,

Copy forwarded with compliments to the Secretary to the Govt. of Mysore, Development Department, Bangalore for favour of informing us if the Hon!ble Resident has kindly recommended the grant of an Import Licence, as per your recommendation No.Pd.71/E11 dated 9th/10th July 1946.

A

General Manager

DD
